VALVOLINE™ CARB & THROTTLE BODY ULTRA-LOW VOC CLEANER

DESCRIPTION:

Valvoline Carb & Throttle Body Ultra-Low VOC Cleaner contains a blend of effective cleaners to help restore engine efficiency and reduce gasoline consumption by quickly dissolving gum, varnish, sludge, grease, dirt and carbon deposits from carburetor throats, chokes and PCV valves. This fast action formula also helps remove deposits from throttle plates and its sealing area. The quick penetrating formula will clean hard to reach clogged passages and surfaces. Meets current ultra-low VOC regulations. Compliant in all 50 States*. Contains less than 10% Volatile Organic Compounds (VOCs).

Equipment coated with gum, varnish, carbon or dirt becomes sticky and inefficient. Sluggish chokes and throttle linkages increase fuel usage and harmful emissions. Deposits coating the inside of a throttle body can cause rough idling, hesitation and surging. Sticky PCV valves can cause excessive oil consumption. **Valvoline Carb & Throttle Body Ultra-Low VOC Cleaner** safely removes these deposits without using harmful chlorinated solvents.

With the engine off, disconnect the air duct from the throttle body. Spray the throttle plate and inside throttle body with **Valvoline Carb & Throttle Body Ultra-Low VOC Cleaner**. Open throttle plate and clean sealing area. Wipe dry with a soft cloth. Reattach air duct. For large open areas, simply hold can upright 4-6 inches from part to be cleaned and spray.

Part Number	Description	Unit UPC
681045	Valvoline Carb & Throttle Body Ultra-Low VOC Cleaner 12/13 oz.	0 74130 68104 0

BENEFITS:

- Helps restore power and performance
- Helps quiet rough idle and surging
- Helps remove gum, varnish, sludge and carbon deposits

TECHNICAL DATA:

Appearance	Clear Liquid
Specific Gravity	0.83 – 0.85 @60°F
Flash Point, TCC	-4°F / -20°C
